This Statement of Special Inspections is submitted as a condition for permit issuance in accordance with the International Building Code as adopted by the City of Goodyear. It includes a schedule of special inspections applicable to this project.

The Special Inspections Engineer of Record shall keep records of specified special inspections and testing and shall furnish copies of inspection and testing reports to the City of Goodyear, Building Safety Division and to the appropriate registered design professionals of record. Discrepancies from the approved plans and specifications and code violations observed during the conduct of special inspections services shall be brought to the immediate attention of the contractor for correction, to the attention of the City of Goodyear, Building Safety Division and to the appropriate registered design professionals of record. A final report of special inspections documenting completion of specified special inspections and correction of any discrepancies and observed code violations noted in the inspection and testing reports shall be submitted to and approved by the City of Goodyear, Building Safety Division prior to the final building inspection approval by City staff.
