Job Title: GIS Technician

Department: Engineering

Immediate Supervisor: GIS Coordinator

Origination Date:	**07/2/2003**
Revision Date:	**06/04/2012**
Job Grade	**805**
FLSA Status	**Non-Exempt**

BRIEF DESCRIPTION OF THE JOB:

The Geographic Information System (GIS) Technician is responsible for inputting, updating, and maintaining existing feature layers and the creation of specific map products. This is accomplished by utilizing existing GIS, global positioning systems (GPS), and computer aided drafting (CAD) tools/applications to build useful and meaningful geographic data, maps and reports. Other duties may include related tasks as assigned.

ESSENTIAL FUNCTIONS:

This information is intended to be descriptive of the key responsibilities of the position. The following examples do not identify all duties performed by any single incumbent.

	Physical Strength Code	ESSENTIAL FUNCTIONS
1	L	Maintains, updates, and assists in the development of the City's geographical information system (GIS). Reads and interprets source documents such as engineering plans, plat maps, site plans and legal descriptions; updates GIS databases from source documents; performs quality control of attribute information; operates and adjusts electronic GPS field equipment to conduct field data collection; conducts verification and identification of infrastructure from engineering as-built drawings; conducts field verification and makes necessary error corrections; performs GIS analysis functions; demonstrates continuous effort to improve and further develop the GIS; and makes recommendations for improvements and upgrades to GIS processes, maps, software, and website.
2	L	Defines GIS product needs per request, and utilizes appropriate application to develop and prepare the GIS product. Utilizes cartographic standards for mapping projects and department standards for tabular reports. Plots or exports product to digital files as appropriate; documents and archives projects.
3	L	Assist in the maintenance and updating of the City's digital record drawings and databases for construction plans, plats, and site plans. Suggests and makes improvements to the process and software related to scanning, filing, and accessing the record drawings.
4	L	Exhibits a service orientation toward customers and maintains productive working relationships. Interprets requests from internal and external customers over the phone and in person for maps or other material. Provides assistance to other employees or departments as needed.
5	L	Acquires knowledge and keeps abreast of new GIS technology trends. Attends GIS seminars, workshops, meetings and conferences as appropriate; subscribes to and reads trade journals; and participates in professional organizations.
