

# Infrastructure and Services

Summary Sheet for the Infrastructure and Services Chapter of the Goodyear 2025 General Plan

---

## *Purpose and Scope of the Infrastructure and Services:*

Required Elements: Water Resources, Public Services and Facilities, Public Buildings (new), Safety (new)

## *Requirements from the Arizona Revised Statute:*

**A water resources element** that addresses:

- (a) The known legally and physically available surface water, groundwater and effluent supplies.
- (b) The demand for water that will result from future growth projected in the general plan, added to existing uses.
- (c) An analysis of how the demand for water that will result from future growth projected in the general plan will be served by the water supplies

**A public services and facilities element** showing general plans for police, fire, emergency services, sewage, refuse disposal, drainage, local utilities, rights-of-way, easements and facilities for them.

**A public buildings element** showing locations of civic and community centers, public schools, libraries, police and fire stations and other public buildings.

**A safety element** for the protection of the community from natural and artificial hazards, including features necessary for such protection as evacuation routes, peak load water supply requirements, minimum road widths according to function, clearances around structures and geologic hazard mapping in areas of known geologic hazards.

## *How is it addressed in the 2003-2013 Goodyear General Plan?*

### **Public Services Element**

**Goal A: An Effective and Efficient Delivery System of Public and Private Facilities and Services.**

**Objective A-1:** Protect human life and property through public safety and emergency services.

**Objective A-2:** Manage the City to provide consistent, high quality, affordable service to its citizens.

**Objective A-3:** Ensure that existing and future residents have an educational foundation for success that improves the local, regional, state, and global marketplace.

**Objective A-4:** Strive for regional educational excellence.

**Objective A-5:** Coordinate with private utility providers to promote compatible land uses through the enhancement of their facilities and services.

**Objective A-6:** Adequately collect and dispose of solid waste.

**Goal B: A Desired Level of Community Services for Existing and Future Customers.**

**Objective B-1:** Enhance its existing levels of service for existing and future municipal services and facilities.

**Objective B-2:** Develop public safety and local government training facilities to ensure the highest levels of employee performance.

**Goal C: A High Quality System of Transmission and Conveyance of Potable and Non-Potable Water.**

**Objective C-1:** Ensure adequate water supply for fire protection, suppression, and pressure needs.

**Objective C-2:** Secure critical infrastructure and support services for a safe community.

*Key Issues to Address in the Plan:*

- Potable water,
- Wastewater collection and treatment
- Sanitation collection
- Police and Fire
- Street maintenance

*Related Plans & Studies:*

- Sonoran Valley Public Safety Master Plan
- Integrated Water Master Plan
- Water Curtailment Plan
- City Public Facilities Master Plan

*Ideas and Comments Identified During GAIN, the Visioning Workshop (VW or VW Survey), and the Open House (OH) meetings:*
