

City of Goodyear Community Advisory

February 2016

- What: Groundwater monitor well, used to collect water levels and groundwater samples for laboratory analysis.
- Where: City of Goodyear right of way, along the southern shoulder of E. Las Flores Ave., between N. Los Robles Dr. and E. Santa Cruz Dr.
- When: Construction activities are scheduled to begin February 1, 2016 from approximately 7 a.m. to 5 p.m.; construction activities can last two weeks total with the drilling lasting about one week.
- How You May Be Affected: Businesses and residents should expect some noise during the construction activities
 and are asked to abide by the traffic signs and barricades in the area. Efforts will be made to cause the least
 disruption to businesses and residents. A chain-link fence may surround the work area during construction for safety
 purposes.

History: Crane Co., the owner of the former Unidynamics facility on Litchfield Road, with oversight from the EPA, is ordering the testing of the groundwater to determine the impact of chemical disposal practices decades ago at the former defense industry facility.

THERE IS NO THREAT TO YOUR DRINKING WATER.

Additional site history is available on the EPA website at:
