FROM: City of Goodyear Building Safety Department

RE: Adoption of the ICC 2012 family of codes and the 2011 National Electric Code

On May 18, 2015, the Goodyear City Council approved the adoption of Ordinance #15-1319, which governs the implementation of the building codes used within the City of Goodyear when determining project code compliance. The above mentioned codes went into effect July 1, 2015. **Therefore, permit applications will not be accepted for review on or after October 1, 2015 if the construction documents do not reflect the 2012 International codes.**

Our goal is to make this transition period as smooth as possible. Therefore submitting construction documents designed to the newly adopted codes can start immediately and construction documents designed to the formerly adopted codes will be accepted up to September 30, 2015.

Sincerely,

Ed Kulik
Chief Building Official
